Reference: Year End Report (11/28/00-12/31/00)

Dear Ms. Birch:

This letter is prompted by the Commission's preliminary review of the report(s) referenced above. The review raised questions concerning certain information contained in the report(s). An itemization follows:

-Schedule B supporting Line 23 of your report discloses a contribution(s) to a candidate(s) for the general election; however, the funds were disbursed after the election date(s) (pertinent portion(s) attached). Please note that contributions may not be designated for an election which has already occurred unless the funds are to be used to reduce a candidate committee's debts incurred during that election campaign.

If the contribution(s) in question was incompletely or incorrectly disclosed, you should amend your original report with clarifying information. If you have made an impermissible contribution, you should notify the recipient and request a refund and/or notify the recipient in writing of your redesignation of the contribution. In the best interest of your committee, all refunds and redesignations should be made within sixty days of the treasurer's receipt of the contribution(s).

Please inform the Commission of your corrective action immediately in writing and provide a photocopy of the refund or redesignation request sent to the recipient committee(s). In addition, any refunds should be disclosed

on Schedule A supporting Line 16 of the report covering the period during which they are received. Any redesignations should be disclosed as memo entries on Schedule B supporting Line 23 of the report covering the period during which the redesignation is made. 11 CFR §110.1(b)

Although the Commission may take further legal action regarding this impermissible activity, your prompt action in obtaining a refund and/or redesignating the contribution(s) will be taken into consideration.

A written response or an amendment to your original report(s) correcting the above problem(s) should be filed with the Federal Election Commission within fifteen (15) days of the date of this letter. If you need assistance, please feel free to contact me on our toll-free number, (800) 424-9530 (at the prompt press 1, then press 2 to reach the Reports Analysis Division). My local number is (202) 694-1130.

Sincerely,

The first part of the paper discusses the importance of the research and the objectives of the study. It highlights the need for a comprehensive understanding of the research area and the specific goals that the study aims to achieve. The second part of the paper presents the methodology used in the study, including the data collection methods and the analytical techniques employed. The third part of the paper discusses the results of the study and the conclusions drawn from the findings. The final part of the paper provides a summary of the key points and offers suggestions for future research.

The research was conducted in a systematic and rigorous manner, following a well-defined methodology. The data was collected from a large and diverse sample, ensuring the representativeness of the findings. The analysis was conducted using advanced statistical techniques, allowing for a thorough examination of the data. The results of the study are presented in a clear and concise manner, highlighting the key findings and their implications. The conclusions drawn from the study are based on a careful interpretation of the results and are supported by the evidence presented.

The study has several strengths, including the use of a large and diverse sample, the application of advanced statistical techniques, and the thoroughness of the analysis. However, there are also some limitations to the study, such as the potential for bias in the sample selection and the limitations of the data available. Despite these limitations, the study provides valuable insights into the research area and contributes to the existing body of knowledge. The findings of the study have important implications for practice and policy, and further research is needed to explore these implications in more detail.

In conclusion, the study provides a comprehensive and rigorous examination of the research area. The findings are based on a large and diverse sample and are supported by advanced statistical techniques.
